CALENDAR 4**THE FUTURE OF REFRIGERANTS****CONTACTS 5**

Jim Wolfe is widely considered one of the country's foremost experts on refrigerants. Among the topics to be discussed are the following:

- ◆ The Montreal Protocol - HCFC production and consumption reduction dates and caps
- ◆ HCFC-123 & HCFC-22 global production capacity and availability beyond phase out dates
- ◆ The Kyoto Protocol and the reduction of greenhouse emissions
- ◆ Climate change 2008 country GHG cap and trade legislation, the most important US proposal to date - the Lieberman-Warner proposal, as well as establishing emissions reductions
- ◆ Climate Change G8 Summit Process as it relates to Greenhouse gas reductions and energy efficiency technologies
- ◆ U. S. Senate Climate Change legislation
- ◆ Sustainable refrigerant
- ◆ Natural refrigerant considerations
- ◆ Options for HVAC refrigerants
- ◆ Industry response - the future of HCFCs and HFCs
- ◆ Evolving policies and environmental regulations

PRESIDENT'S MESSAGE

Dear Members,

Happy New Year fellow ASHRAE members! On behalf of all officers, committee chairs & members, I truly hope that your holiday celebrations were safe and you have a prosperous year ahead of you. I would like to extend my gratitude to Mr. Dave Feyock for a job well done at last month's meeting. We had a great turn out for a unique application for ground source heat pumps. Also, I would like to thank Mr. John Augustine, Jr. and his staff at the Greater Johnstown Career & Technology Center. They welcomed us with arms wide open into their Laboratory and Facility. If you were unable to attend, or have further questions regarding these systems, I know either of these gentlemen would be delighted to help you out.

Looking forward to the new year, we are fortunate to host Society Past President Mr. James Wolf. On the 20th of January, he will be presenting to us "The Future of Refrigerants" at Anthony's Mediterranean Grill. Please see remainder of this newsletter for further details. This is one of those rare times when we are fortunate enough to host such a high profile professional as Mr. Wolf. Please show your courtesy by not missing this opportunity.

Lastly, please note that this month's meeting topic is Membership Promotion! Know someone who does not attend the meeting simply because they aren't a member, don't understand what ASHRAE is about or is afraid they won't know anyone? Ask them to give us a shot.

Thank you for your continued support & see you at the meeting!

-Chris Albright
Chapter President

RESEARCH PROMOTION

Collection to Date:	\$1,500
Goal:	\$3,100
Percentage of Goal:	48.4%

2008-09 Donors

Mr. Steven Gridley
Mr. Ryan Buff
Mr. John Weiland
Mr. Chris Albright
Mr. Timothy Sample
Mr. Thomas Sobieski

James Wolf
President, Global Policy Associates
Falls Church, Virginia

James Wolf is President of Global Policy Associates, a consulting group providing policy development advocacy at the national and international levels with an emphasis on energy efficiency, climate change, ozone protection, and green building technology. He has 41 years of experience in the HVAC industry and has held positions with The Trane Company and American-Standard in marketing, government affairs, and environmental policy.

He earned a BS degree in Electrical Engineering at the University of Arizona and a MBA from American University in Washington, DC. He served in the United States Army as a Signal Corps Officer.

Active in ASHRAE, he has served as Society President (2000-2001). Prior to 2001 he served as President of the National Capital Chapter of ASHRAE and on the Board of Governors for eight years. At the Society level, he served as Chairman of the ASHRAE Journal Committee, Chairman of the Government Affairs Committee, Chairman of the Technology Council, Chairman of the Education Council, Chairman of the Finance Committee, Chairman of the Regions Council, Chairman of the President-Elect Advisory committee, and Chairman of the Nominating Committee. He served on the Society Board of Directors as a Director-At-Large (DAL), as a Vice President, as Treasurer, as President-Elect, and as Society President. He is presently a member of the ASHRAE Advocacy Committee and on the Board of Directors for the ASHRAE Foundation.

He served as President of the Washington Industrial Round Table, President of the Washington Appliance Round Table, Chairman of the Alliance for Responsible Atmospheric Policy, and is currently Chairman of the Climate Change Task Force of the Business Council for Sustainable Energy. He is actively involved as a business advisor at the Montreal Protocol and Kyoto Protocol meetings.

ASHRAE JOHNSTOWN CHAPTER

ASHRAE will be the global leader, the foremost source of technical and educational information, and the primary provider of opportunity for professional growth in the arts

ASHRAE JOHNSTOWN CHAPTER

ASHRAE will be the global leader, the foremost source of technical and educational information, and the primary provider of opportunity for professional growth in the arts and sciences of heating, ventilating, air conditioning and refrigerating

ASHRAE, founded in 1894, is an international organization of some 50,000 persons. ASHRAE fulfills its mission of advancing heating, ventilation, air conditioning and refrigeration to serve humanity and promote a sustainable world through research, standards writing, publishing and continuing education.
