Daniel S Flanick the manager of Tekleen automatic Filters Inc. a California company that was established in 1984. Dan has been with the company for twenty-five years focusing on automatic self-cleaning water filtration systems that are serving the industrial and irrigation markets. With over 20,000 filters sold to many different customers and applications worldwide, mainly to the industrial world. The two major applications are for the protection of piping and heat exchanging equipment from buildup of deposits on warm surfaces. The other application is for the protection of spraying nozzles from plugging. New emerging applications is the protection of membranes.
